Annual Statistics
2009 - 2010

Preface

The Annual Statistics provides material descriptive of the population of Manitoba. It includes statistics on the operations of the Health Programs such as Home Care and Mental Health. The utilization of hospital, medical, chiropractic, optometric, oral surgery, Pharmacare, and long term care services by residents of the province during the fiscal year April 1, 2009 - March 31, 2010 are also included. Some material on services pertaining to 2009/2010 and earlier years are included to permit comparison of one year to another.

The Regional Health Authorities have been actively involved in planning for the health service delivery for residents in each region of Manitoba. Where possible, statistical detail is provided by regional health authority.

The tables should be read in conjunction with the notes that precede the data in each Section. As well, the footnotes to the individual tables are important for a better understanding of the data.

The Health Information Management Branch of Manitoba Health has prepared this publication. Any inquiries pertaining to this publication in general or to individual tables should be addressed to:

Population

Part 1

The **population** data in this section are based on records of residents registered with Manitoba Health on June 1, 2009.

On April 1, 1996, the Province of Manitoba converted the Health regions to Regional Health Authorities. This resulted in a shift of boundaries and a change in how the different local districts are distributed. First Nation residents are now being allocated to their municipality by postal code. Therefore, historical comparisons of regional data prior to 1996/1997 are not possible

(2) Therapy includes physiotherapy and occupational therapy assessments.

(3) Winnipeg's client counts for 2007-08 nursing services were counted differently because some clients accessed service from other Community offices and were counted more than once. The WRHA is working on a distinct service count independent of community area. South East clients receiving nursing services in 2006-07 averaged 205 monthly in total.

Mental Health and Spiritual Health Care Branch

Section 2

The **Mental Health and Spiritual Health Care Branch** is responsible for provincial planning and policy development related to mental health and spiritual health care. Regional health authorities have operational responsibility for a majority of mental health services and all spiritual health care services including planning, delivery and ongoing management of the services.

There are several mental health services funded by and accountable to Manitoba Health. The data contained in the following tables represents only mental health programs that are centrally provided.

Selkirk Mental Health Centre

Section 3

The **Selkirk Mental Health Centre** is a provincial mental health facility mandated to provide long term mental health inpatient treatment and rehabilitation services to all residents of Manitoba whose challenging treatment and rehabilitation needs cannot be met by other services. The Centre continues to provide short term and acute inpatient mental health services to Manitoba residents of the Interlake, North Eastman, South Eastman, and Churchill Regions. The Centre also admits acute patients from other regions as required.

The Centre has a formal agreement with the government of Nunavut, to provide inpatient services to residents of Nunavut experiencing mental illness.

Patient services are available at Selkirk Mental Health Centre in four specialized treatment programs: Short Term Treatment, Psychosocial Rehabilitation, Extended Treatment and Rehabilitation; and Forensic Rehabilitation.

Health Services Insurance Fund

Part 3

The **Health Services Insurance Fund** operates outside the Provincial Consolidated Fund and provides for payment of insured services on behalf of Manitoba residents for hospitals, personal care homes, and health care providers. This includes the prescription drugs (Pharmacare), Ambulance, Air Ambulance, and Northern Patient Transportation programs.

Hospital and Community Services

Section 1

The information contained in this section is derived from the National Discharge Abstract Database.

Tables 1 - 3 are based on the Discharge Abstracts Database (DAD) and include data for those residents of Manitoba who were separated from hospital during the period April 1, 2009 - March 31, 2010. An Abstract is completed and submitted for each separated patient by all Manitoba hospitals and by hospitals outside of Manitoba providing services to insured residents of Manitoba.

In reviewing the data in this section the following definitions will be helpful:

Acute Care Hospital - A hospital that provides primarily for the diagnosis and short-term treatment of patients for a wide range of diseases or injuries.

Rehabilitation and Chronic Care Hospital - A hospital that provides primarily for the treatment of patients requiring rehabilitation therapies and for the continuing treatment of patients with long-term illness or with little or no potential for recovery and who require equipment and professional supervision not usually provided in a personal care home.

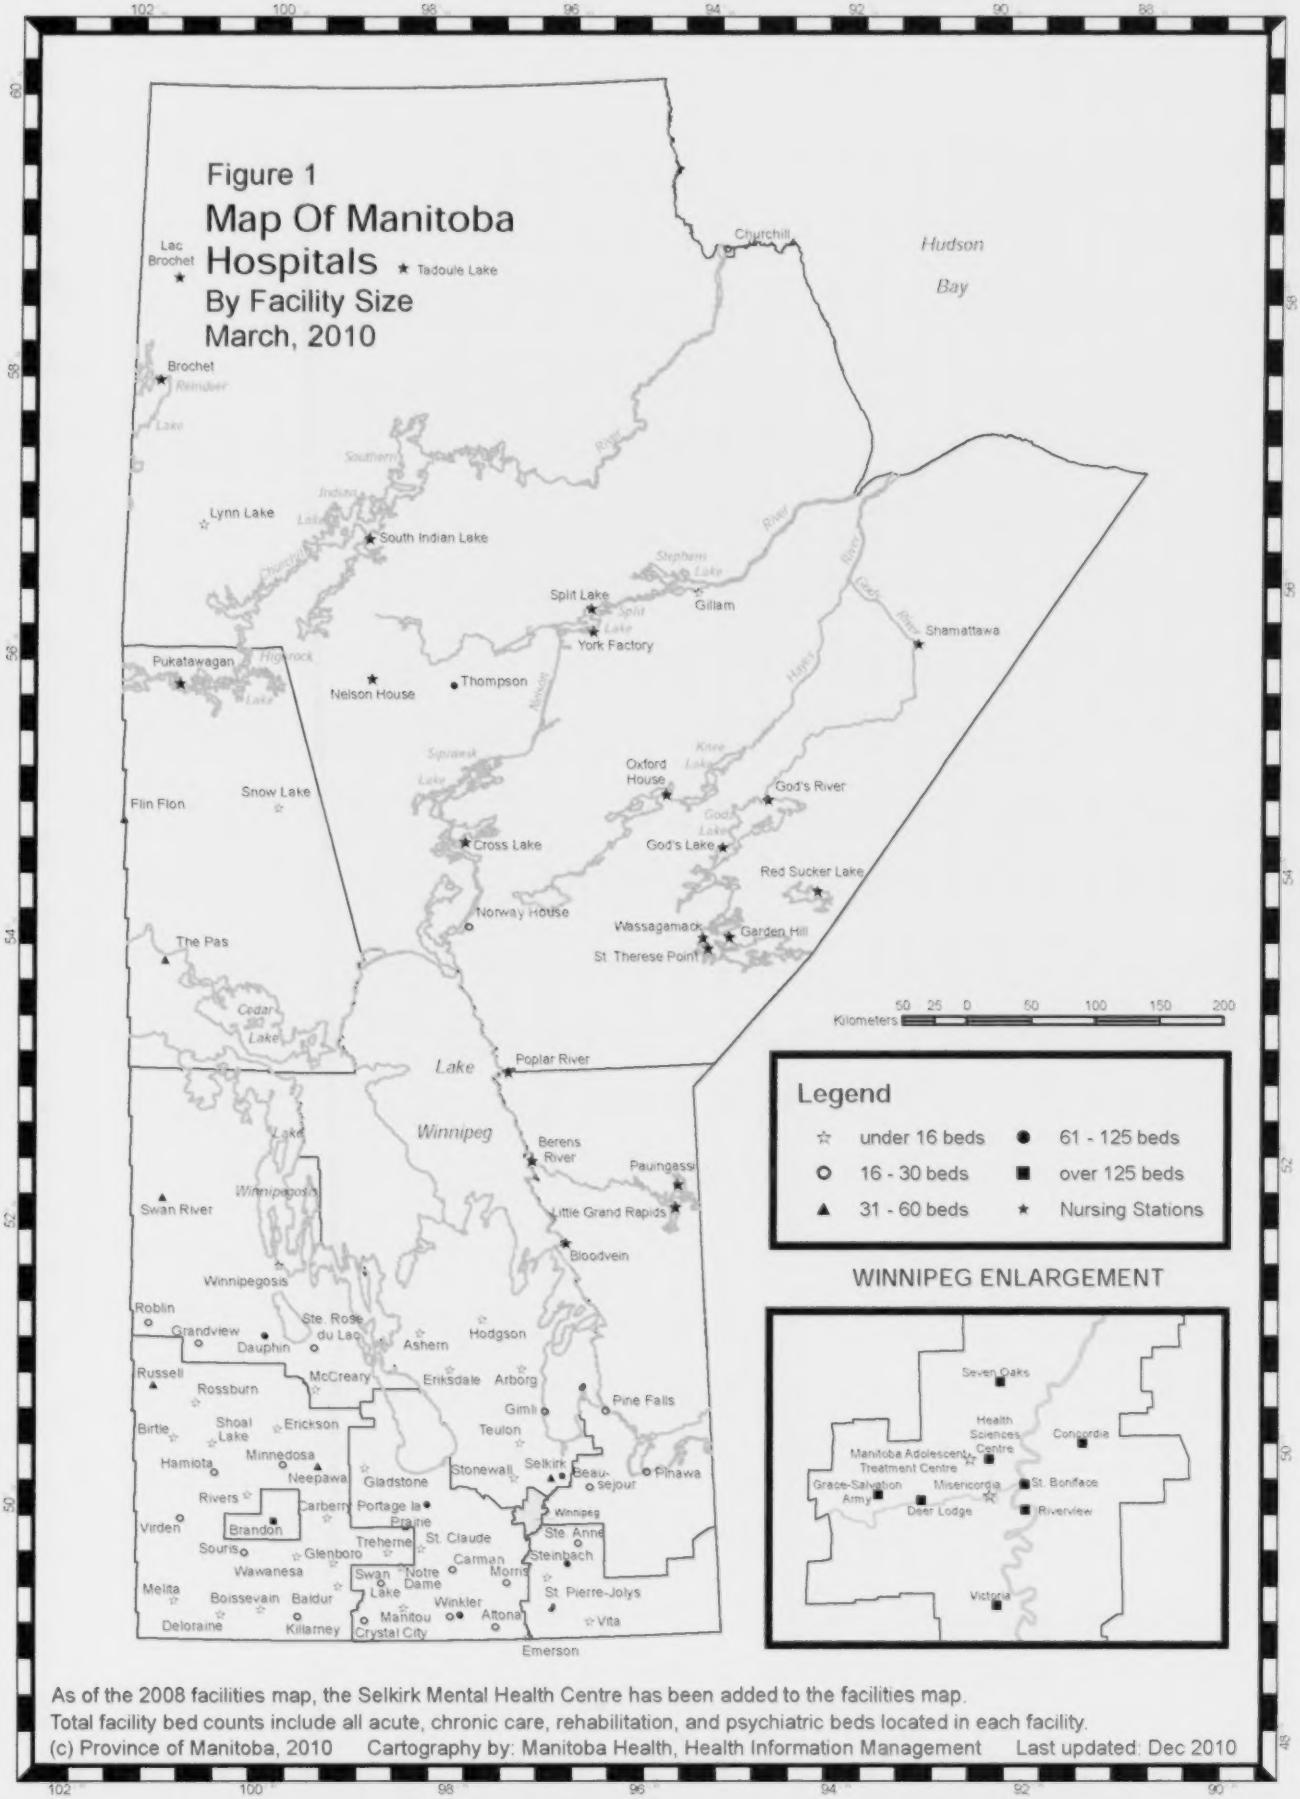
Separations - The discharge or death of an in-patient from a hospital. The frequency counts show individual cases separated, not unique persons separated.

Separated Days - The accumulated in-patient days since admission of adults, children, and newborns, who were discharged from the hospital or who died in the hospital during the reporting year, including those admitted in previous years.

Length of Stay - The difference in days between the admission date and the separation (discharge) date for inpatients in a healthcare facility.

Rate Per 1,000 Population - Calculation is based on Table 1 in the Population Section, unless otherwise stated.

Diagnostic Classification/Category - Based on International Classification of Diseases, 10th Revision, Clinical Modification (ICD-10-CA).



As of the 2008 facilities map, the Selkirk Mental Health Centre has been added to the facilities map.
Total facility bed counts include all acute, chronic care, rehabilitation, and psychiatric beds located in each facility.

Section 2

The information contained in this section that relates to **medical, chiropractic, optometric, and oral surgery service**s is based on claims submitted by physicians, chiropractors, optometrists, and oral surgeons for residents of Manitoba. Data for services which are not insured under the Manitoba Health Services Insurance Plan, whether they are for residents or non-residents, are excluded from this section.

Some of the tables in this section pertain to services rendered by physicians as well as other health practitioners while other tables are restricted to services provided by physicians.

A number of tables show physician counts for those receiving in excess of $50,000 from Manitoba Health, by type of practice.

Table 2A (Continued)
Average and Median Payments ($50,000 Gross) (1) to Physicians by Specialty of Practice - 2008/2009 and 2009/2010

NOTE: Specialty of Practice is according to Manitoba Health records as at March 31 each year.

(1) Amounts represent gross payments by Manitoba Health from which the physicians must pay overhead costs. Payments are made directly to health practitioners, as well as payments to patients where the health practitioner has "opted-out" of the Plan. The Average Payments exclude remuneration from the University of Manitoba to geographic full-time clinical teaching staff. Additional funding of $2.0 million for 2008/2009 and $2.0 million for 2009/2010 for Continuing Medical Education and $1.0 million for maternal/paternal leave for 2008/2009 and $1.0 million for 2009/2010 was excluded. For Radiology, the Average Payment represents professional services only and includes salary and contract payments made through hospitals. All other blocs of practice include salary and contract payment made by the RHA's. Payments made for laboratory services to registered facilities are excluded, as it is not possible to separate the technical and professional components. Payments made to physicians for the Professional Liability Insurance Plan (PLIF) are also excluded. The PLIF payment for 2008/2009 was $5.0 million and $5.0 million for 2009/2010. Funding provided of $5.0 million in 2008/09 and $6.0 million in 2009/10 for Physician Recruitment were also excluded.

(2) Neurosurgeons were remunerated a total of $5,520,095 in 2008/2009 and $6,222,412 in 2009/2010 as per the Neurosurgery Funding Agreement. There were 9 Neurosurgeons in 2008/2009 and 10 in 2009/2010.

(3) Prior to the recalculation of the average income, lump sum payments made to groups of radiologists providing services to various locations throughout Manitoba were allocated on a prorated basis

(4) One pathologist is registered as an internist, but his practice is primarily as a director of a laboratory being recognized by the College of Physicians and Surgeons as a specialist in laboratory medicine.

(5) Average and median are not calculated because it is not possible to separate the technical and professional components.

(6) Includes Brandon and Winnipeg.

(7) Excludes Pathology and Neurological Surgery.

(8) Includes directors of dialysis facilities. Services may be provided by a group of practitioners, but are billed in the name of a single practitioner for administrative efficiencies.

(9) Due to the group billing requirement in the August 2007 emergency room services agreements, the average and median income for emergency room physicians are understated.

(10) 2009/2010 figures for internal medicine, oncology-medical and oncology-radiology include a fee for service billing over threshold recovery which may or may not have shown up in previous year's figures. The inclusion of the recovery in this table is dependant on the timing of the information being made available to Manitoba Health.

Table 2B(1) (Continued)
Average and Median Payments {1/2 the Mean Threshold (2)} to Physicians by Specialty of Practice - 2008/2009 and 2009/2010

(1) The conditions stated in Table 2A also apply to Table 2B.

(2) Derived by computing the average income for all physicians within a bloc in the fiscal year and dividing by two. If the threshold calculated for a specialty is less than 80% of the provincial threshold ($107,183 for 2008/2009 and $121,171 for 2009/2010), the provincial threshold is substituted as the specialty threshold. One half the mean threshold allows for difference in income levels between specialties and gives a more accurate picture of the average and median incomes of full-time physicians.

(3) All physicians excluding pathologists and neurological surgery, receiving Manitoba Health payments.

(4) 2009/2010 figures for internal medicine, oncology-medical and oncology-radiology include a fee for service billing over threshold recovery which may or may not have shown up in previous year's figures. The inclusion of the recovery in this table is dependant on the timing of the information being made available to Manitoba Health.

(1) Refers to those who received in excess of $50,000 in the RHA during the year.

(2) Manitoba Health registered population as of June 1, 2009.

(3) Differs from the total in Table 5 as this table considers physicians with salaried income or contract arrangements from hosptials.

(4) Differs from the total in Table 2a as this table is unique doctors by RHA. Physcians are allocated to the region where they provide the majority of their service.

Provincial Drug Program

Part 3
Section 4

Manitoba Health administers four distinct and separate drug benefit programs for Manitobans: Manitoba Pharmacare, Employment and Income Assistance participants, residents of personal care homes, and the Palliative Care Drug Access Program (PCDAP). It also administers a program that provides funding assistance for devices to help Manitobans with physical disabilities. Provincial Drug Programs does not include drug expenditures for hospital in-patients.

Pharmacare is a drug benefit program for any Manitoban, regardless of age, whose income is seriously affected by high prescription drug costs.

Employment and Income Assistance (EIA) covers the cost of essential drugs for its program participants only if coverage from another program or private insurance is not available.

Individuals who choose a hospital or *personal care home* for the final days of their life have their drug costs covered by the health care system.

The Palliative Care Drug Access Program provides deductible-free coverage through Manitoba Health. This program is designed for people at the end stages of their illness, when the focus of care is on comfort. By covering the cost of these eligible drugs for use in the home, a major financial burden is removed for the patient and their family.
